ANODAL® CLEANER NFB POWDER

Anodal Cleaner NFB Powder is a heavy duty, non-silicate, non-foaming, alkaline soak cleaner that exhibits the following performance characteristics:

- Excellent for removing buffing compounds and job soils.
- Especially recommended for bright parts.
- Does not attack parts.
- Leaves no smut.
- Non-foaming therefore air agitation can be used.

PHYSICAL PROPERTIES:

Appearance: Free flowing powder

APPLICATION DETAILS:

Concentration: 4 - 8 oz/gal.
Temperature: 120°F - 160°F.
Time: 1 - 10 minutes
Equipment: Mild Steel

CONTROL METHOD:

1. Place a 10 ml sample in a 250 ml beaker.
2. Add 8 - 10 drops of Methyl Orange indicator.
3. Titrate with 1.0 N Hydrochloric acid (HCl) to a red endpoint.

Calculations: Anodal Cleaner NFB (oz/gal) = ml HCl x 1.7

HANDLING PRECAUTIONS:

Anodal Cleaner NFB is slightly alkaline and may be irritating to some personnel. Rubber gloves should be worn when transferring this material to the processing tank.

WASTE DISPOSAL:

Anodal Cleaner NFB contains biodegradable wetting agents. Solutions of NFB may need pH adjustment in order to meet local ordinance standards prior to disposal.
